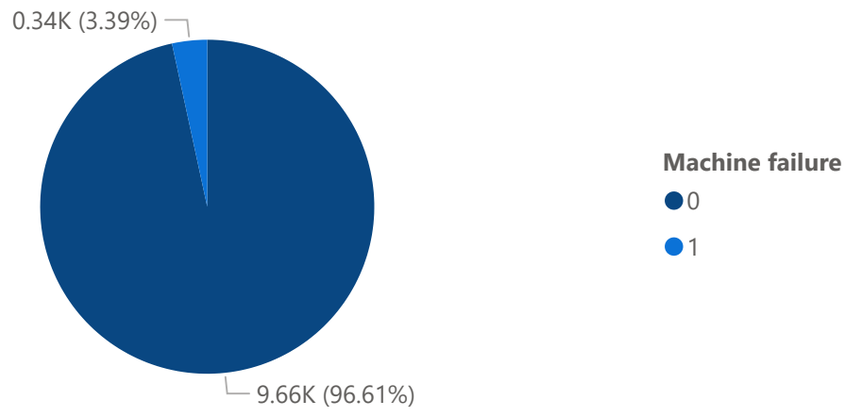
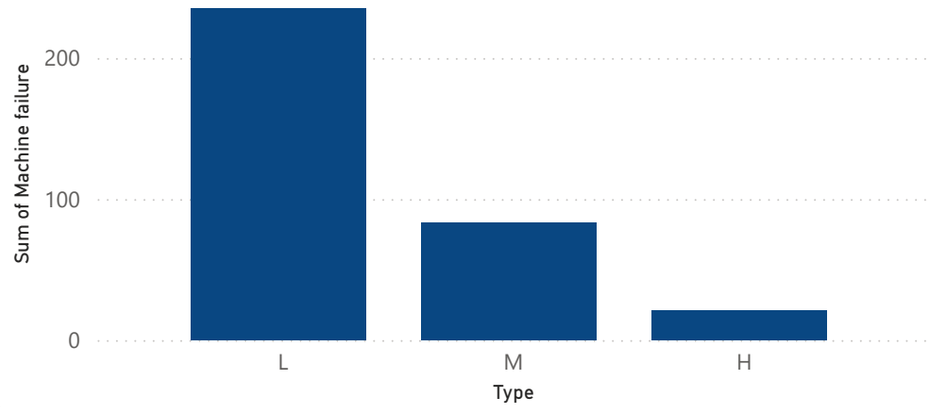
PREDICTIVE MAINTENANCE DASHBOARD

10.00K	339	115	98	95	46	19
Count of Product ID	Sum of Machine failure	Sum of HDF	Sum of OSF	Sum of PWF	Sum of TWF	Sum of RNF

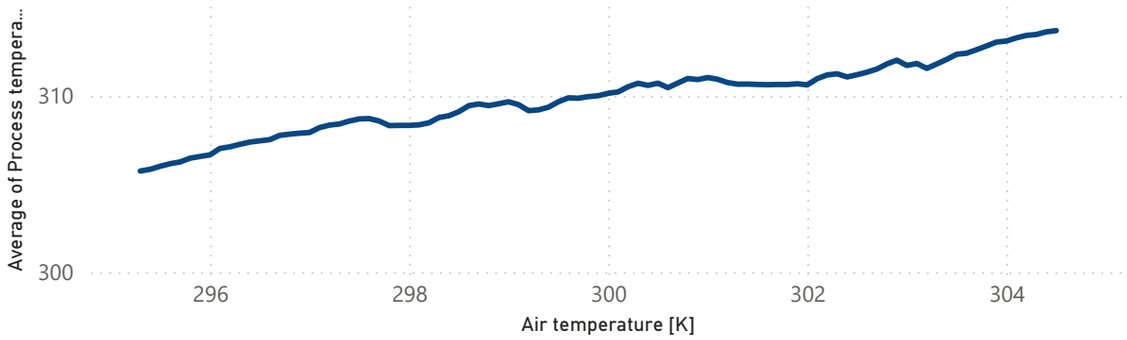
Count of Machine failure by Machine failure



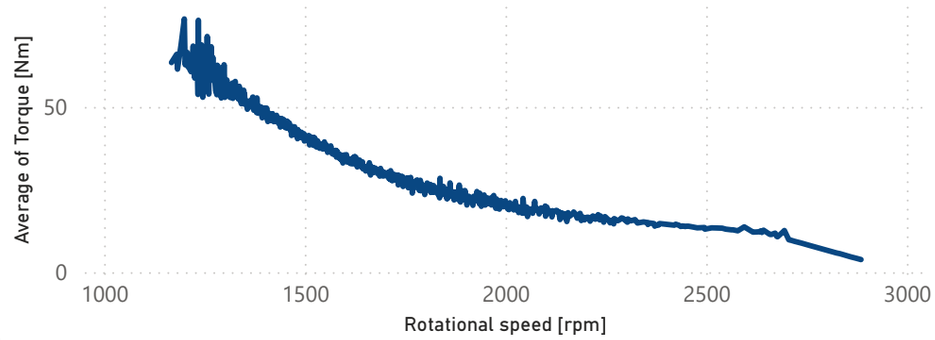
Sum of Machine failure by Type



Average of Process temperature [K] by Air temperature [K]

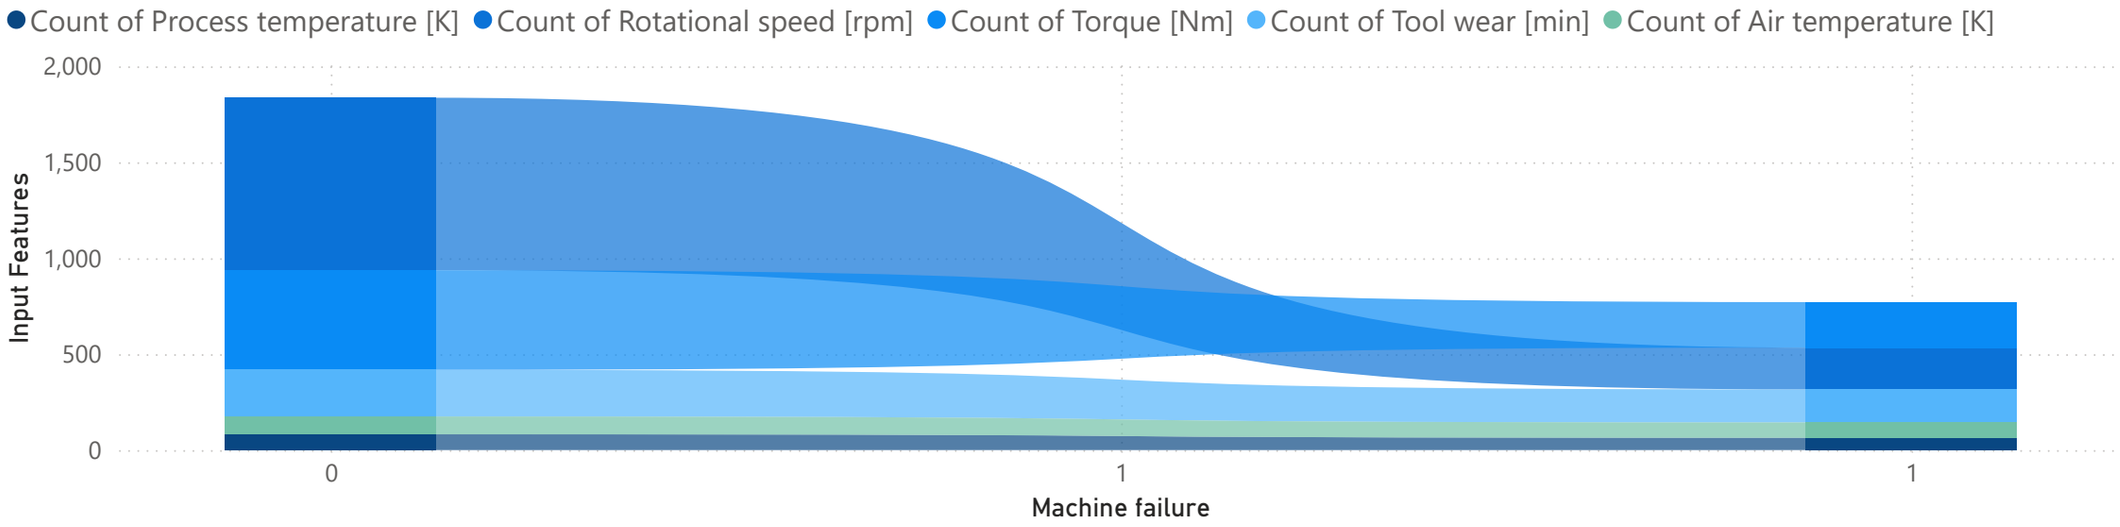


Average of Torque [Nm] by Rotational speed [rpm]

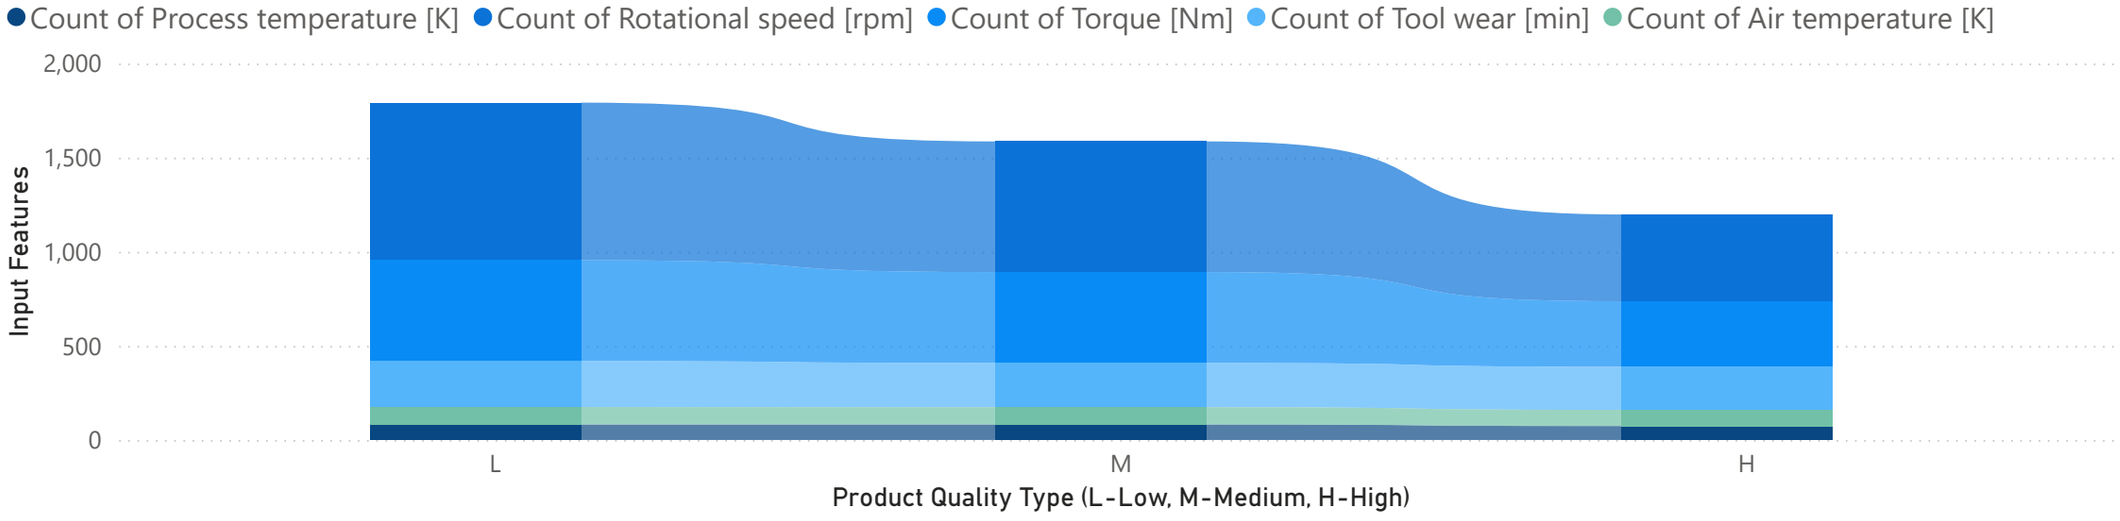


Quick measure

Relationship of all input features between failed and non-failed machines.

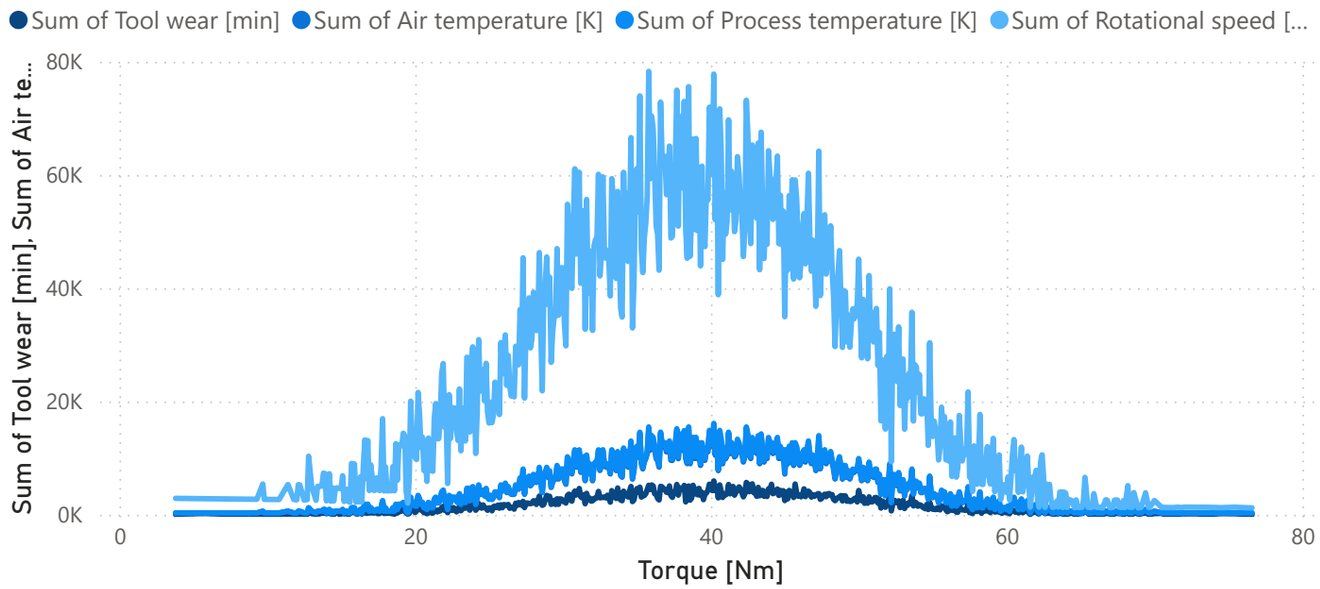


Relationship of all Input Features between Product Quality Types

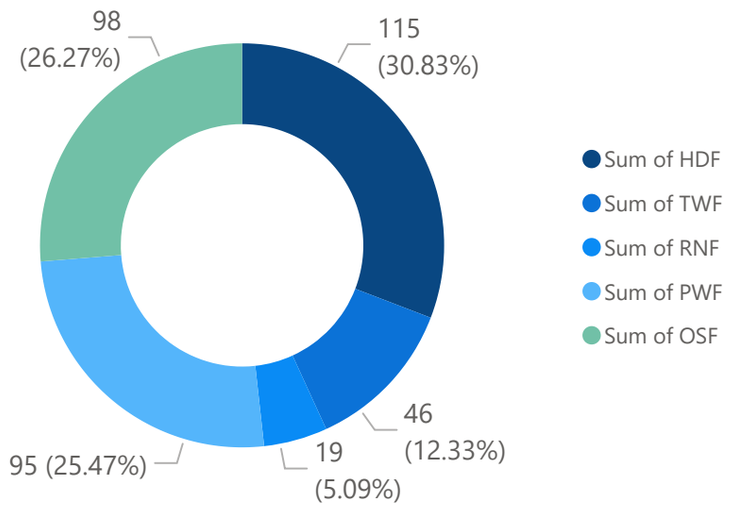


Quick measure

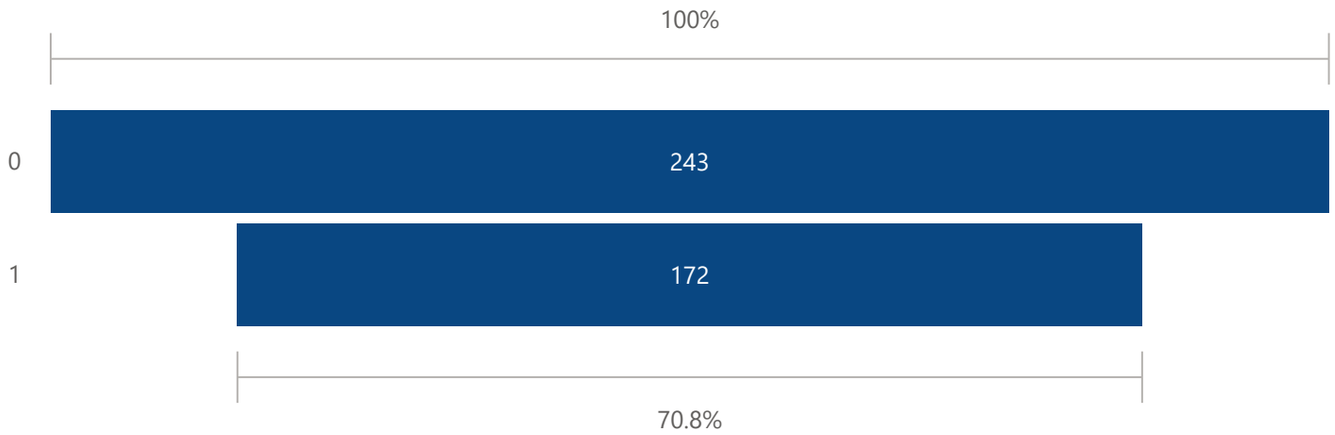
Influence of Torque on Key Industrial Process Parameters



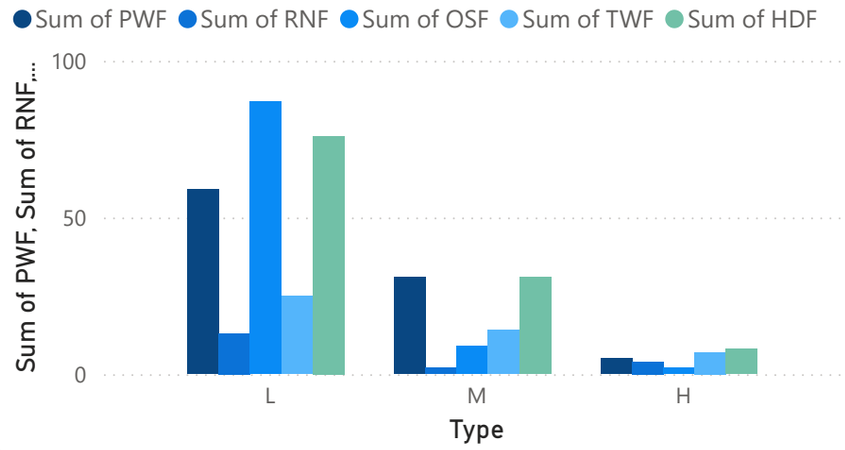
Machine Failure Modes



Count of Tool wear [min] by Machine failure



Distribution of Failure Modes Across Product Quality Tiers



Quick measure
